Hardeners, Release Agents, Colour Sealers

ASC colour hardeners and sealers enhance the look of your concrete, protects against mould, stains, algae, moss, dirt, grime and oils. We can provide a safe anti-slip additive so you will never have to worry about slipping or losing your footing. Our colour sealers have been formulated to provide a highly durable coating that is UV stabilised and can be applied to most cement based surfaces.

• IMPORTANT •

The printed colours shown are the closest representation the printing process allows. Please visit our display centre for a more accurate representation.

Colour Key: ● Release Agent ● Premix Sealer ● Hardener & Spray-on

Sealer colours available in both solvent & water base
